

WOMEN'S NEEDS SURVEY

What do your woman want?

Surveys are very helpful in allowing you to ask the questions on what women need and to collate the multiple responses at the same time providing measurable results that enable you to relevantly plan.

Surveys help you to;

- i) Collect demographics to know your women better
- ii) Identify opportunities where women might like to serve
- iii) Identify where women's needs are not being met
- iv) Develop strategies and plan accordingly
